The Best of Beatlemania! The name itself is the closest thing to The Beatles and so is this band! Four lads from Liverpool who look and sound amazingly like the real thing. Their ability to recreate a live Beatles show is uncanny.

The Best of Beatlemania pays strict attention to detail. From their mop top haircuts, collarless black suits and original Beatle boots to their British accents and mannerisms, it's all there!

In order to recreate the original Beatles sound, The Best of Beatlemania uses the same style Beatle guitars and amplification used in the 1960's. From Paul's signature left handed Hofner violin bass, George's Gretsch Country Gentleman, John's custom black & white Rickenbacker guitar to Ringo's picture perfect Ludwig swirl drum kit. To top off the casual look and sound, Vox amplifiers are also used.

The band runs through all of the eras of the Beatles career. From early favorites such as, "I Want to Hold Your Hand", "She Loves You" and "Twist & Shout" to the psychedelic "Sgt Pepper" period, complete with colorful "Sgt Pepper" uniforms. One more costume change and you will hear great songs such as "Come Together", "Hey Jude" and "Revolution". As for their vocals, truly unbelievable!!!! It sounds just like "the record" are the usual comments.

The band is comprised of four life long Beatle maniacs who love what they do, and it shows!
